ENROLL HORSE

Enrolling your horses is what will allow all of the entries, notifications and data to function within the platform.

Eventually, this will be ported in through a download interface, but until then, users must manually enter their horses information.

You will need a PDF of your horse's papers to complete the process.

### ENROLL HORSE

You have three options to select from.

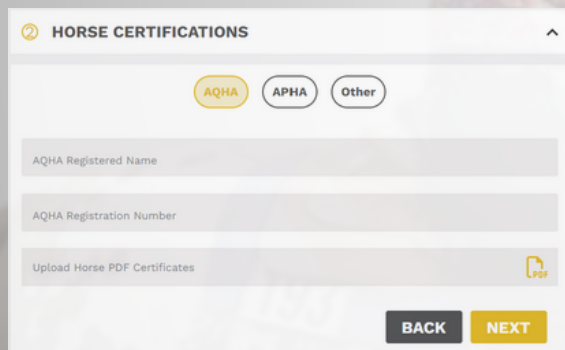

**Legendary Stallion** - Only select this option if you are wanting to Enroll a stallion into Legendary Stakes and unlock disciplines for him so his foals can compete in Legendary Stakes events.

**Competitor** - Choose this option most of the time.

**Dam** - Choose this option if you own a broodmare or were a breeder of foals which you want to receive breeder royalties. If the mare is already input into the system through “**Competitor**”, the mare is good to go for Breeder Royalties, Breeder entries and Dam Owner entries.

After selecting one of the three options, click “**Next**”.

You then enter the horse’s registered name and number. Upload a copy of its registration papers.

Can be AQHA, APHA or Other.

Click “**Next**”

Your horse’s name is loaded, you then:

Upload a JPG or JPEG image if you desire.

Click “**Dam**”

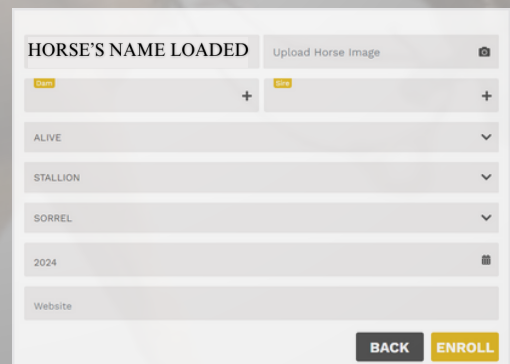

- A search bar will pop up, If the dam is in the system by searching for her name, you simply click on her.
- If she is not, click “**CAN’T FIND YOUR HORSE?**” Then type in her name.

Click “**Sire**”

- Follow the same process as Dam.

Finish the enrollment process by inputting:

- **Alive** (Deceased is only for enrolling a Legendary Stallion or Dam who is deceased but you can still enter events as a Dam Owner if you were the last owner of record), **Sex**, **Color**, **Age**, **Website** (if you want it linked to your horse).

Now that you have a horse, go to the events page.

You can navigate by **Date, Location, Title (event name), and Discipline**

If a sire has unlocked a discipline, that offspring can enter an event in that discipline.

## ENTER THE EVENT

This is what all of the work is for!

Select the horse you wish to enter. Click **“CONTINUE”**

Select a Discipline which has been unlocked. Click **“CONTINUE”**

- If you wish to request a Discipline to notify the stallion owner, you may do that on this page as well.

### Select an Event.

There will be a list of **“Divisions”** for each event.

- Divisions are either a class based in the discipline or description within a discipline which should be familiar to participants in those disciplines. Cow based events will have divisions like Open, Non-Pro Amateur, may be tied to an age of the horse if on Aged Event. Barrel Racing will have the D's, 1-4 or possibly 1-6.

Select a Division and then **“SELECT RIDER”** to the right of the page.

- Riders are to have a user account. You can simply use the search bar to find the rider. We are updating the platform to allow for a write in option as well.
  - Only Riders that have a user account will be able to Enter an Event to compete with other Riders in their Division.
- Once you have selected a rider, Click **“CONTINUE”**
- You will be taken back to what appears to be an Event page, Click **“CONTINUE”** at the bottom right of the page.

You now land on the **“REVIEW”** or check out page.

- Review the entry.
- If your account has Credits, the \$250 entry fee will be deducted out of your account.
- If your account balance is \$0 Zero, you can enter your credit card information to fund the entry fee and check out.

Click **“CHECKOUT”**

Congratulations, you have entered a Legendary Stakes Event!

### MY ENTRIES

Here you will see your entries. The navigation arrow to the right of the entry will allow a drop down with the details of the event, division, horse and more.

Now that you have entered, go to the event.

### HOW YOU WIN

Legendary Stakes is an annual competition. The purse builds as entries come in. The purse goes into a large pot which we call “**The Legendary Purse**”.

You will have access to that information through the **Dashboard**.

Each event gets an equal allocation of the purse.

- If no purses are claimed at an event, because of no entries, then the purse which would have been allocated to that event, stays in The Legendary Purse.
- Event purse will be divided evenly between divisions and between the four categories which can be entered: Horse, Rider, Breeder and Dam Owner.

A purse is claimed for each entry category and each division for:

- **The highest placing horse by each sire entered.**
- **The highest placing horse in the division.**
- **The highest placing horse in each category.**

As you can see, there are many opportunities to claim purses. Each year, The Legendary Purse starts out small, **zero to be exact**. As the entries come in, allow the platform to do all the work for you and watch your account grow as you claim purses throughout the year!

To repeat that point, a purse won/claimed will grow over the annual competition. As the Legendary Purse grows, all purses claimed and events yet to take place, will grow. This unique and amazing model is what creates opportunities for participants that have not existed before.

Enrolled Stallion Owners and Breeders will see their Annual Royalties grow as the entries come in.

- For **Non-Enrolled Stallions** who have disciplines unlocked, the 20% of entry fee which would go to the stallion owner and breeder, will go to the **Enrolled** Stallion Owners and Breeders.
- Disbursement of funds in user accounts will take place **AFTER** the Annual Event has concluded and audit of user data, horse ownership and records is complete.
